

# User Stories

Full stack

## Navigation-bar

**As a** user,

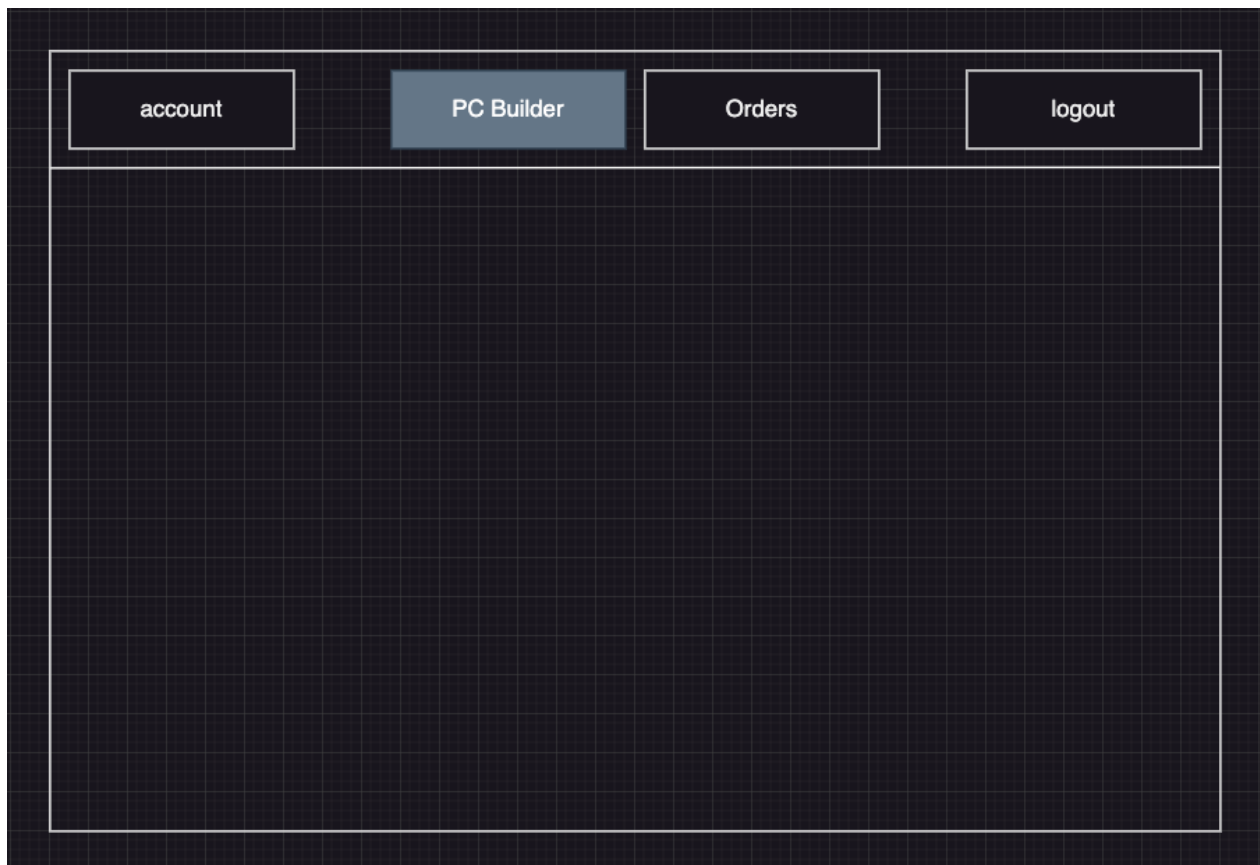

**I want** to easily navigate throughout the website

**So that** I can access different pages of the site.

## Acceptance Criteria

- Navigation bar visible at all times
- Active page is highlighted
- The logout button does not work yet.

## WireFrame

## User-login

**As a** registered user,

**I want** to log in to my account

**So that** I can manage my builds and orders and create new ones.

## Acceptance Criteria

- User can login with email and password.
- User receives error when inputting invalid credentials.
- User is redirected to home page after login.

## WireFrame

A wireframe diagram of a login/register form. The form is centered within a large rectangular frame. It consists of four vertically stacked rectangular input fields, each containing a placeholder label: 'email', 'password', 'login', and 'register'. The fields are arranged in a column, with the 'login' field positioned below the 'password' field and the 'register' field positioned below the 'login' field. The entire form is set against a dark background with a light grid pattern.

## User-register

**As a** new user

**I want** to register

**So that** I can purchase and make PC builds.

### Acceptance Criteria

- User can enter name, email and password.
- User is redirected to login page after registration.

### WireFrame

A wireframe diagram of a user registration form. The form is centered on a dark background with a light grid. It consists of a large outer rectangle containing a smaller inner rectangle. Inside the inner rectangle, there are five stacked rectangular input fields. The first three fields are labeled 'name', 'email', and 'password' from top to bottom. Below the 'password' field is a 'register' button, and at the bottom is a 'login' button. All text is in a light, sans-serif font.

## User-logout

**As a** logged in user,

**I want** to log out of my account

**So that** my information remains secure.

## Acceptance Criteria

- User can log out from home page.
- User is redirected login page after logout.

## WireFrame

## PC-Builder

**As a** user,

**I want** to choose the parts for my pc

**So that** I can order it later

### Acceptance Criteria

- User can pick and choose between computer parts
- User is redirected to orders page after finishing the build

### WireFrame

The wireframe shows a web interface for a PC builder. At the top, there is a navigation bar with four buttons: 'account', 'PC Builder' (which is highlighted in a darker shade), 'Orders', and 'logout'. Below the navigation bar is a main content area with a grid background. This area contains a list of computer components on the left and corresponding selection buttons on the right. The components and their buttons are: CPU (choose cpu), MOBO (choose motherboard), Memory (choose memory), Storage (choose storage), GPU (choose gpu), Case (choose case), and PSU (choose power supply).

	account	PC Builder	Orders	logout
CPU		choose cpu		
MOBO		choose motherboard		
Memory		choose memory		
Storage		choose storage		
GPU		choose gpu		
Case		choose case		
PSU		choose power supply		

## Adding-PC-to-Cart

**As a** user,

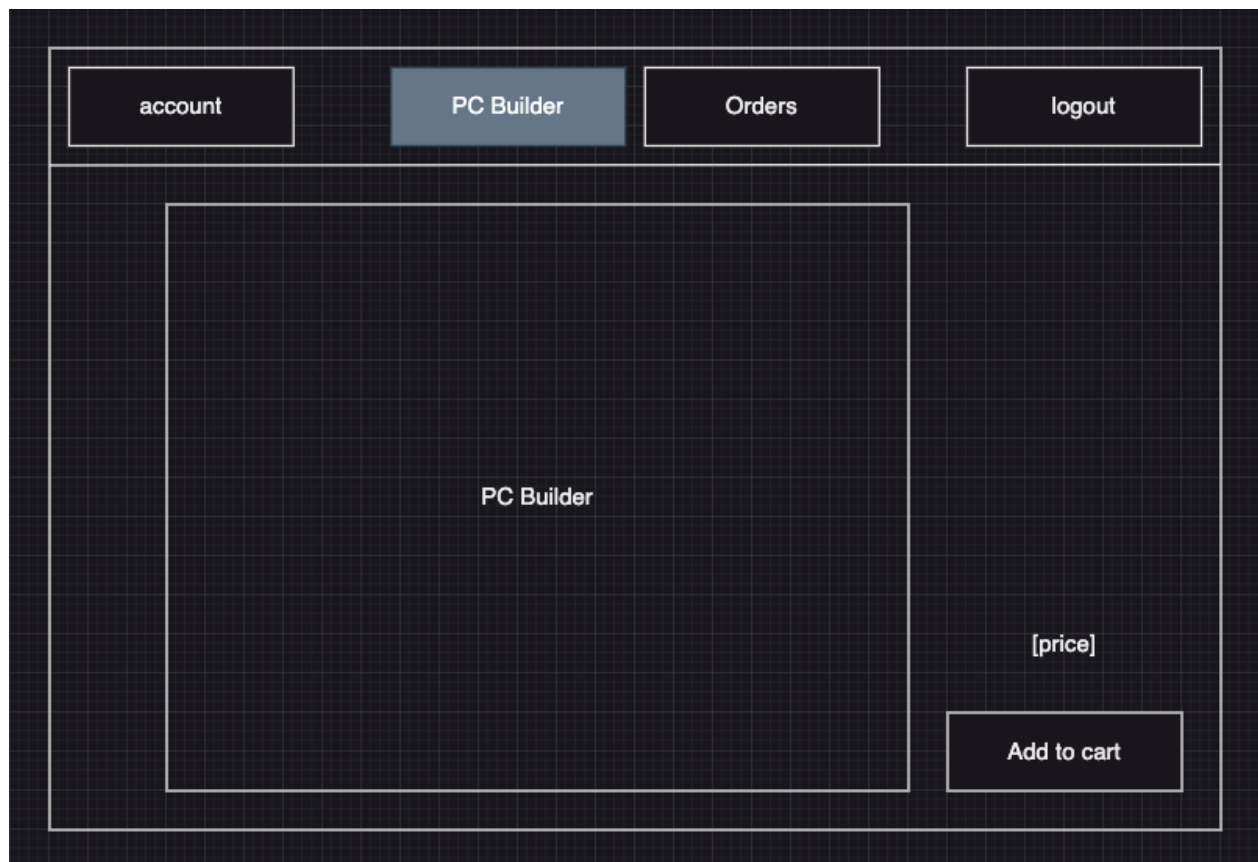

**I want** to add my created PC build to my cart

**So that** I can order them later

## Acceptance Criteria

- User can add their newly created build to the cart.
- When adding to cart, the user can see the price of the build.

## WireFrame

## Ordering

**As a** user,

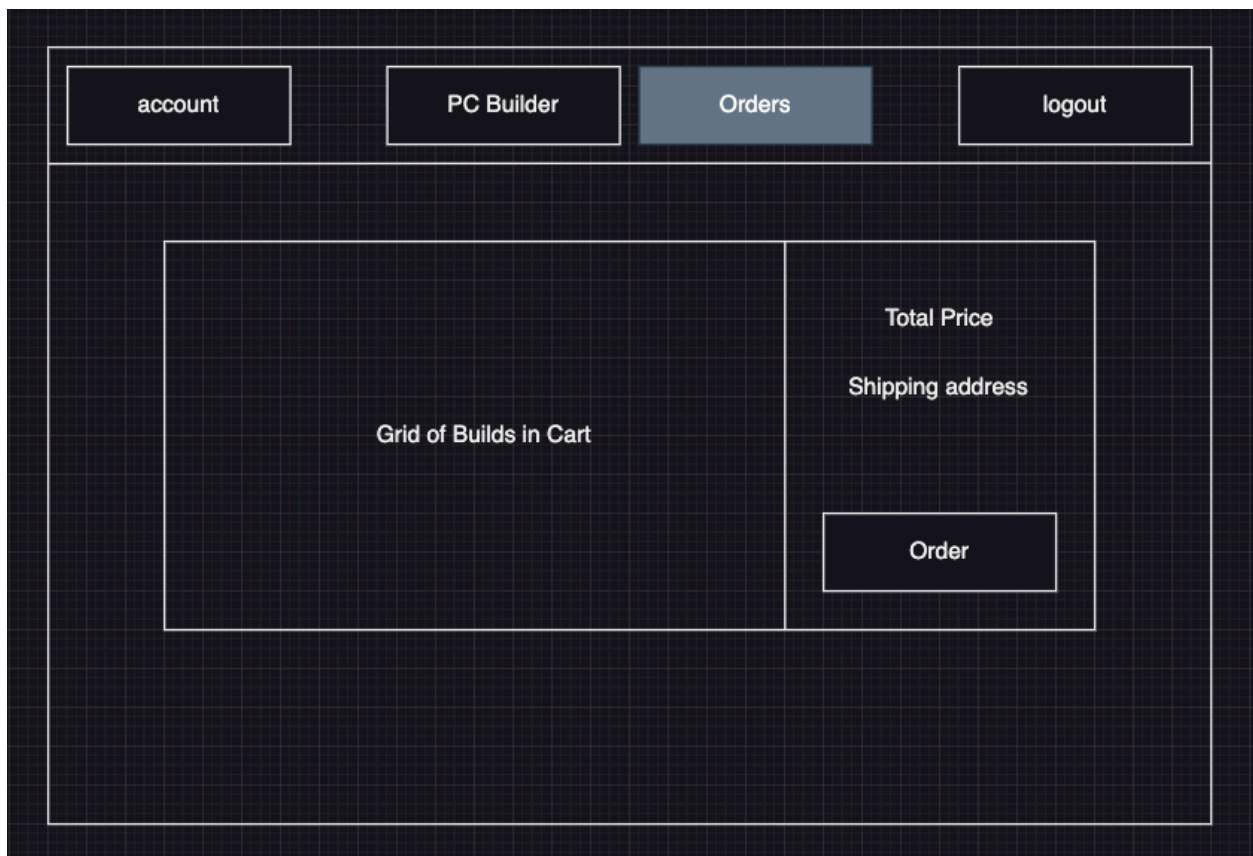

**I want** to order the builds in my cart

**So that** I can receive the components or prebuilt PCs.

## Acceptance Criteria

- Users can order the builds in their cart on the orders page.
- The order is added to the history of orders

## WireFrame

## Order-History

**As a user,**

**I want** to view my order history

**So that** I can keep track of my orders.

### Acceptance Criteria

- Users can access their order history from the orders page.
- Each order displays all ordered PCs, order id, order date and status.

### WireFrame

## Account-page

**As a** user,

**I want** to change my account details

**So that** my details stay up to date

### Acceptance Criteria

- Users can change their account details
- Users can delete their account

### WireFrame

The wireframe illustrates the layout of an account management page. It features a top navigation bar with four links: 'Account' (highlighted), 'PC Builder', 'Orders', and 'Logout'. The main content area is divided into two columns. The left column lists account details: 'Name', 'Email', 'Address', and 'Password (masked)'. The right column contains corresponding action buttons: 'Change Name', 'Change Email', 'Change Address', and 'Change Password'. A 'Delete Account' button is positioned at the bottom center of the main content area.

Account		PC Builder	Orders	Logout
Name	Change Name			
Email	Change Email			
Address	Change Address			
Password (masked)	Change Password			
Delete Account				

## Administrator-page

**As an** Administrator

**I want to** view incoming order

**So that** I can see the orders of our customers

## Acceptance Criteria

- Administrators can see all user orders
